EDUCATION

B.Sc. in Computer Science

Addis Ababa University (AAU)

CGPA: 3.57 / 4.0

Graduated 2026

LANGUAGES

English (Professional) Amharic (Native) Afan Oromo (Native)

CERTIFICATIONS

- ALX AI Career Essentials
- Udemy Fundamental Programming
- Web Development Master Certificate
- JavaScript & React Bootcamp
- Oromia Education Bureau Award

SOFT SKILLS

Problem Solving Teamwork Adaptability Technical Writing Fast Learner

Professional Summary

Versatile **Computer Science Graduate** from **Addis Ababa Univevsty(AAU)** equipped with hands-on technical proficiency across **Full-Stack Software Development, Computer Networking, Systems Administration, Databases, Cybersecurity, and Software Testing/QA**. Experienced with production internships delivering offline-first PWAs, secure REST APIs, and scalable web apps using **React, Next.js, Node.js, PHP/Laravel, and PostgreSQL/MySQL**. Possesses comprehensive understanding of network protocols (TCP/IP, OSI, Subnetting), hardware diagnostics, security fundamentals (RBAC, KYC workflows, encryption), and test-case execution.

Core Technical Competencies

01. DEV

Software Development

- Languages:** JS, TypeScript, PHP, Java, Python, C++, C#
- Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS
- Backend:** Node.js, Express.js, PHP, Laravel
- Integrations:** REST API development & integration
- Tools:** Git, GitHub, VS Code, Postman, Vercel

02. NET

Computer Networking

- Topologies & Scope:** LAN, WAN, MAN, PAN, Network Topologies
- Models:** TCP/IP & OSI 7-Layer Architecture
- Addressing:** IPv4 Addressing & Subnetting (CIDR), MAC Addresses
- Protocols:** DNS, DHCP, HTTP, HTTPS
- Hardware & Troubleshooting:** Routers, switches, modems, WAPs & network diagnostics

03. OS/HW

Hardware & Operating Systems

- Hardware Components:** CPU, RAM, HDD, SSD, Peripherals assembly
- Hardware Maintenance:** Installation & physical troubleshooting
- Windows OS:** Windows installation, configuration & device drivers
- File Systems & OS:** File systems (NTFS/ext4), memory & process management
- Linux:** Basic Linux commands, terminal scripting & shell concepts

04. DB

Databases & Data Management

- Databases:** MySQL, PostgreSQL, MongoDB, SQL, Supabase
- Design & Concepts:** Relational database design & 1NF-3NF normalization
- Data Operations:** CRUD operations, complex SQL queries, indexing
- ORM Tools:** Prisma ORM, Sequelize

05. CYBER Cybersecurity & IT Fundamentals

- **Access Control:** Authentication, Authorization, RBAC
- **Identity Security:** Password management, OTP & identity validation (KYC)
- **Data Protection:** Data encryption, automated backups, audit logs
- **Security Operations:** Basic cybersecurity principles & troubleshooting

06. QA Software Testing & Quality Assurance

- **Testing Types:** Manual application, functional & regression testing
- **Defect Tracking:** Bug identification, reproduction & formal reporting
- **Execution:** Test-case execution & test data preparation
- **UX & Usability:** UI testing, responsiveness & usability evaluation

Work Experience

Full-Stack developer Intern

Oct 2026 – Present · On-site

Kifiya Financial Technology PLC · Full-time

- Engineering full-stack FinTech application components and microservices using **React, Next.js, Node.js, and relational databases**.
- Contributing to secure financial transaction workflows, RESTful API integrations, and authentication controls.
- Collaborating in an on-site engineering team to design high-availability and responsive digital financial services.

App Tester | Quality Assurance

Sep 2026 – Present · Remote

App Testing Project · Remote

- Executing manual application testing, functional testing, and regression testing across web and mobile platforms.
- Identifying, documenting, and tracking software bugs, UI defects, and usability issues with step-by-step reproduction steps.
- Validating test-case execution, verifying patch deployments, and ensuring overall quality and accessibility.

Web Developer Intern

Oct 2025 – Jan 2026

Tech Hive · Addis Ababa, Ethiopia

- Engineered full-stack collaboration features using **Next.js, React, Prisma ORM, and MySQL**.
- Implemented offline-first Progressive Web App capabilities utilizing **Service Workers and IndexedDB**.
- Built modular reusable components and synchronized state between online and offline application states.
- Participated in API design, authentication verification, and backend database integrations.

Web Developer Intern

Jun 2025 – Sep 2025

Efuye Gela / Zemenay Tech Company · Addis Ababa, Ethiopia

- Designed responsive user interface layouts and client views using **React.js, Next.js, and Tailwind CSS**.
- Constructed backend REST API integrations and server components using **Node.js, Express, PHP, and Laravel**.
- Collaborated seamlessly with senior developers using standard Git & GitHub flow, pull requests, and code reviews.

Frontend Developer Intern

Nov 2024 – Dec 2024

CodSoft · Remote

- Developed interactive web interfaces and desktop software incorporating **Java OOP principles**.
- Executed manual software testing and usability assessments to detect and document frontend defects.
- Delivered clean, cross-browser responsive frontend solutions adhering to modern web design principles.

Featured Technical Projects

Guardian Communication System

Secure messaging platform engineered with Node.js, Express, PostgreSQL, and React. Configured normalized DB schema, RBAC roles, JWT auth, and data encryption.

Node.js PostgreSQL React JWT/RBAC

Task Management System

Full-stack manager with Laravel 10 REST API backend and React + Vite frontend. Features RBAC permissions, status filtering, and Vercel deployment.

Laravel React REST API SQLite/PG

Book Review Platform

Web application built with Next.js, Supabase, PostgreSQL, and Tailwind. Features real-time queries, full CRUD operations, and favorite lists.

Next.js Supabase Tailwind PostgreSQL

Round Robin CPU Simulator

Java GUI desktop simulator visualising operating system CPU process scheduling, Gantt chart timeline metrics, and Java Swing listeners.

Java Java Swing OS Concepts

Personal Portfolio Website

Developer portfolio showcasing personal web projects, skills, and interactive UI design. Live at portfolio-flame-psi.vercel.app.

Next.js React Vercel Tailwind
